# E-Vehicles

*Steps to Create a Better World*

## Connecting People, Improving Lives

Sustainability is a cornerstone of our business and key to the long-term success.

## 3Cs Green Initiatives

Echoing the United Nations Sustainable Development Goals (UNSDG) together with China's 14th 5-Year Plan spotlighting on Sustainability, we focus on 3 areas in the Greater China and Hong Kong Market:

- ▶ Carbon Neutrality (Goal 7)
- ▶ Circular Economy (Goal 11, 12, 13, 14, 15)
- ▶ Co-Crete Green (Goal 17)

## Our Logo Story

Interlocking design elements symbolise connections of sustainable stakeholders: Circling leaf represents our environmental friendly transportation and service efficiency; Maintaining blue sky and green earth is our ultimate goal!

## Our Electric Vehicles

- ✓ First eVan in 2018
- ✓ First Batch of 5.5 Tons eTrucks from May 2022
- ✓ 5.5 Tons eTrucks offset 7,323 CO2 emission per year
- ✓ 2 Tons eTrucks offset 23,968 CO2 emission per year
- ✓ eVan offset 610 CO2 emission per year
- ✓ Over 30 Electric Vehicles across Hong Kong and China

## Our Accreditations

- ✓ Qualified by **ISO 14064-3** to calculate, report and verify greenhouse gases (GHG) emissions and able to provide carbon consultation services
- ✓ Certified Environmental Management System by **ISO 14001** on the efficient use of resources and minimising damage to the environment offer green consultation services
- ✓ Certificates issued by **United Nations Framework Convention on climate change** in accordance with the procedure for voluntary cancellation in the Clean Development Mechanism (CDM) Registry

Whatever we do,

*We do better than others*

- A Passion for Service

CO2 Calculation Assumption: A 5.5 Tons truck carrying cargo weight of 57,600 kg/ month. 2 Tons Truck and eVan are proportionally carrying less than 5.5 Tons'.
